Re: Compliance Evaluation Inspection
ILD 984 775 858

Dear Ms. Reinert:

On November 9, 2004, a representative of the United States Environmental Protection Agency (EPA) inspected the former Solar Communications (Solar or you) which was located at 1500 Shore Drive, Naperville, IL. The purpose of the inspection was to evaluate Solar's compliance with certain requirements of the Resource Conservation and Recovery Act (RCRA), specifically the Standards Applicable to Generators of Hazardous Waste as set forth in 35 Illinois Administrative Code 722 and Title 40 of the Code of Federal Regulations [40 CFR 262]. Enclosed please find a copy of our inspection report.

As discussed with you after the EPA's inspection of Solar's former installation at 1500 Shore Drive, EPA verified that Solar's operations have been relocated to 1150 Frontenac Drive, Naperville, IL, which was the subject of a separate inspection report and letter which have been sent to you under separate cover. No hazardous waste generation was observed at Solar's 1500 Shore Drive installation.

If you have any questions or concerns regarding this matter, please contact Judith Kriz, of my staff, at (312) 353-6057.

Sincerely,

A handwritten signature in cursive script that reads "Lorna M. Jereza".

Lorna M. Jereza, P.E., Chief,

Lorna M. Jereza, P.E., Chief
Compliance Section 1
Enforcement and Compliance Assurance Branch

7/13/05
Date

Purpose of Inspection:

On November 9, 2004, I, Judith Kriz, of the Enforcement and Compliance Assurance Branch, U.S. EPA Region 5, conducted a compliance evaluation inspection (CEI) at Solar Communications (Solar or the installation), which formerly operated a flexographic printing facility at 1500 Shore Drive, Naperville, IL 60563. The purpose of this CEI was to evaluate Solar's compliance with certain provisions of the Resource Conservation and Recovery Act (RCRA); specifically those regulations related to Solar's management of hazardous waste. Solar has sold the structure located at 1500 Shore Drive, and my observations of that structure indicate that it is now a multi-tenant office building, generating no hazardous waste.

History

Christine A. Reinert, Solar's Human Resources Administrator, advised that Solar moved from the Shore Drive location in January 2003. Solar's current operations are located at 1120 Frontenac Road, Naperville, IL 60563. I also inspected Solar's current installation under a separate inspection report.

Site Visit

Once I had arrived at 1500 Shore Drive and determined that Solar was no longer the occupant, and that the installation did not generate hazardous waste, I located Solar's current operations and drove there.

I met with Ms. Reinert after presentation of my credentials, and was advised by her of the history of Solar's operations as described above. Ms. Reinert advised that all employees and equipment formerly located at 1500 Shore Drive were moved to 1150 Frontenac Road in January 2003.
